

WEDDING PHOTOGRAPHER GUIDELINES ZION LUTHERAN CHURCH

A wedding ceremony is a worship service and a sacred occasion. Therefore, we ask that the following be observed by the official wedding photographer:

1. Pictures of the wedding party may be taken **during the processional and recessional**. Please use a zoom lens for these photos since you are not permitted to walk halfway down the aisle to take these.
2. **NO flash pictures** are to be taken during the wedding service. The official photographer may take non-flash pictures from the rear of the church and/or balcony, but no major movement should occur at the side aisle or front of the church which would disrupt the service.
3. Specific poses may be taken before or after the service, as desired. Since the church must be prepared for our Saturday worship service, it is necessary that all photography within the building following the wedding ceremony be **completed by 3:30 pm**.

Thank you for your cooperation
in making this a truly special day for all involved.

WEDDING VIDEOGRAPHER GUIDELINES ZION LUTHERAN CHURCH

A wedding ceremony is a worship service and a sacred occasion. Therefore, we ask that the following be observed by the wedding videographer:

1. Videotaping may be done from the **church balcony** where a jack has been installed to directly plug into the sound system.
2. Videotaping may also be done from the **side aisles**, but no major movement should occur at the side aisle or front of the church which would distract from or disrupt the service. Any additional requests for videotaping during the ceremony should be **submitted to the Officiating Pastor for his approval**.
3. Since the church must be prepared for our Saturday worship service, it is necessary that all videotaping within the building following the wedding ceremony be **completed by 3:30 pm**.

Thank you for your cooperation
in making this a truly special day for all involved.
